DETAILED ACTION

Allowable Subject Matter

Claims 1-85 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The overall claimed combination of a computer-implemented method for tracking and reporting the status of automated clearing house ("ACH") transactions processed by an ACH operator, comprising the steps of: receiving an ACH file for ACH processing, the ACH file comprising an ACH batch that comprises an ACH transaction item; tracking on a computer a status of the ACH file during each of a plurality of ACH file processing events performed by the ACH operator, the file processing events comprising at least one of receiving the ACH file, confirming the ACH file, and approving the ACH file and at least one of pending the ACH file, processing the ACH file, processing the ACH batch in the ACH file, and processing the ACH transaction item in the ACH batch; and **presenting the tracked status of the ACH file in response to a query to obtain the status of the ACH file** is neither anticipated nor rendered obvious by the prior art.

Sanders et al. ('811 of record) teaches an electronic funds transaction clearinghouse network (the financial network 14) where a file transfer agent 24 can transfer and receive files from the network 14 but does not teach or suggest any tracking of the status of any processing events performed via the financial network 14, and an ACH operator would be at least a part of that network. In addition, Sanders et al. does not teach or suggest the tracking feature of figure

17, element 1726 of the instant claimed invention which is disclosed on page 53 in the first paragraph as described in the instant application.

Concannon et al. (WO 00/30053 of record) teach a system allowing customers of a banking institution to transmit bulk files of payment instructions to the bank for execution and the payment instructions may include a mix of domestic or international Automated Clearing House (ACH) transactions, domestic or international wire transfers, multi-bank transactions and instructions to print checks drawn on the receiving bank or at another bank.

Nelson (January/February 2002 of record) teaches European ACH systems including new systems being developed for 24/7 implementations with ACH linkage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
